

## Infrared Ear Thermometer

Model: RA600

- Highest accuracy by rotating in 3" Scanning Mode or 1" measurement
- Multiple- Use PLUG& SECURE Probe Cover
- Fever alarm
- 9 memories
- C/F switchable
- Backlight
- Auto shut-off
- Low battery indicator
- Self-diagnosis for malfunction

**RESULT IN 1" OR 3" Scanning Mode**

Patent Nos : ZL 2011 3 0359483.1  
ZL 2010 2 0668110.2  
M403995

### Clinically Accurate

**EN 12470-5:2003**

This Ear thermometer has been clinically tested in several big teaching hospitals based on the protocol of EN 12470-5:2003 regulatory standard, covering sufficient febrile and normal body temperature subjects with satisfied clinical repeatability and measuring accuracy comparing to the concurrent oral temperature measurement reading.
